May 6, 2015.

Peter,

It is with great pleasure that I recommend Rouse Resources Inc. to any organization in need of professional leadership recruitment support.

We are always very impressed at your comprehensive and knowledgeable approach at each stage. During our initial meetings, it is clear that you and your team are very aware of the market and understand exactly what we look for in successful candidates. This is only magnified with prompt and thorough candidate presentations. Each candidate introduced is accompanied by detailed career experiences that directly interrelated with our positions.

There is never a time when I didn't know the status of a search. I appreciate your flexibility in our late night calls during my hectic schedule through the years of our partnership.

We continue to be thrilled with our new Leadership Associates and remain impressed with your follow up that includes both TJX and our new Associates.

Thank you.

Sincerely,

Licinia Bennett
